UHN Toronto General Toronto Western Princess Margaret Toronto Rehab Michener Institute
WCHH Women's College Hospital Health care for women | REVOLUTIONIZED

If you have a site preference for your patient please indicate here:

_____.

Please note that this may increase your patient's wait time.

In the TAPMI model, primary care providers play an active role in the treatment of their patients. The TAPMI team will provide assessment and a care plan for your patient's chronic pain problem. In some cases, treatment may be initiated by TAPMI, however, once stabilized (6-24 months) the patient will be returned to you for ongoing care, including pharmacotherapy, with our continued support.

TAPMI physicians and nurse practitioners will not take over prescribing permanently.

Please note that a referral may be seen by any health discipline (Doctor, Nurse, Occupational Therapist, Pharmacist, Physiotherapist, Psychologist, Social Worker) in TAPMI.
