

Women's College Hospital 76 Grenville Street, 3rd Floor Toronto, Ontario M5S 1B2 Phone: 416-323-6269

Fax: 416-323-2666

Please fax all pages of the referral forms together with requested imaging and consult notes to Central Triage at Toronto Academic Pain Medicine Institute (TAPMI) at Women's College Hospital.

416-323-2666

Your patient's referral will be assessed and sent to the most appropriate service with the next available appointment. TAPMI is a comprehensive virtual network of pain management services in downtown Toronto. The participating hospitals are:

Please note all patients must have a Primary Care Provider.

In the TAPMI model, Primary Care Providers (PCP) play an active role in the treatment of their patients. The TAPMI team will provide assessment and a care plan for our patient's chronic pain problem. In some cases, treatment may be initiated by TAPMI, however, once stabilized (6-24 months) the patient will be returned to the PCP for ongoing care, including pharmacotherapy, with our continued support.

TAPMI Physicians and Nurse Practitioners will **not** take over prescribing permanently.

Please note that a referral may be seen by any health discipline (Physician, Nurse Practitioner, Nurse, Occupational Therapist, Pharmacist, Physiotherapist, Psychologist, Social Worker). Please inform your patient that, if appropriate, they will be enrolled in a Pain Education course.

Exclusion Criteria for TAPMI Referrals:

- Patients without a primary care provider
- Patients with an active WSIB
- Patients undergoing concomitant treatment by other pain clinics or seeing multiple providers simultaneously
- Patients having exhausted all treatment modalities, having seen multiple pain clinics and where the information forwarded to us allows us to conclude there is nothing further we can offer
- Patients with unstable, undiagnosed or untreated psychiatric comorbidities
